

## MGX-IT LIFE LADDER

### Emergency Escape Ladder

-  Aircraft Grade Aluminum
-  Industrial Grade Webbing
-  1000 lb. Tested
-  Standoffs
-  Slip Resistant
-  10 Year Warranty
-  Lightweight
-  Easy to use
-  Tangle free

In an emergency, there is not much time to think. Being lightweight and easy to use, this makes the MGX-IT ladder perfect for a fast and safe escape from your home. In the event of a fire, the MGX-IT ladder should be used as a last resort. All escape plans should have at least 2 options.

*Take your MGX-IT Emergency Escape Ladder out of its box, and put it within easy reach in a nearby closet, under a bed or close to the window designated for an emergency escape. Keep the instructions close to the ladder and review them regularly. Be sure that you and your family have practiced using the ladder from a first story window not more than 6 feet above the ground as preparation for an emergency.*
